From the Executive Director of Campus and Public Safety

Thank you for taking time to read this year's annual security report. This report is designed to provide you with important information about your safety and security on the campus. In addition to outlining the details of the various programs the University offers community members, the report also contains statistics about crime on campus. When you review the statistics, you will note that Morgan State University is a safe campus. The safety you experience on the campus of Morgan State University is due in part to the combined efforts of many different departments and individuals. Safety is a community responsibility and we rely on all community members to contribute to security on campus by reporting suspicious activities and using common sense when going about their daily activities. The Department of Police and Public Safety is primarily responsible for developing services, programs, and strategies for maintaining a safe campus. We rely on our collaborative relationships with community members to fulfill that responsibility. We are committed to the philosophy of community-oriented public safety and problem solving which we carry out through our Community Oriented Policing (COP). Through this program, we have assigned officers to serve as liaisons with various student organizations, college and schools, varsity athletic teams, and administrative offices. In addition to engaging in some of the more routine crime prevention programming, the liaisons introduce other programs for problem identification and solving. Over the past two years, the COP program has become the cornerstone of our efforts to become more fully engaged with the campus community as partners in safety. We hope you find this report informative and helpful, and that your stay at Morgan State University will be enjoyable and safe. If you have questions or would like further information about safety and security at Morgan State University, please contact us at 443-885-3100.

Adrian J. Wiggins
Executive Director
Office of Campus and Public Safety

The Campus Security Act, Legal Requirements:

The Campus Security Act, among other requirements, requires colleges and universities to:

- Publish an annual report every year by October that contains three years of campus crime statistics and certain campus security policy statements;
 - Disclose crime statistics for the campus, public areas immediately adjacent to or running through the campus, and certain non-campus facilities and remote classrooms. The statistics must be gathered from campus police or security personnel, local law enforcement, and other University officials who have “significant responsibility for student and campus activities”;
 - Provide “timely warning” notices of those crimes that have occurred and pose an ongoing “threat to students and employees”; and
 - Disclose in a public crime log “any crime that occurred on campus . . . or within the patrol jurisdiction of the campus police or the campus security department and is reported to the campus police or security department.”
- **The Jeanne Clery Disclosure Compliance Statement,**

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act is the federal law, originally known as the Campus Security Act that requires colleges and universities across the United States to disclose information about crime on and around their campuses. The Clery Act also requires reporting crimes on public property not owned or controlled by the University. Schools are required to publish an annual report every year that contains the three previous years worth of campus crime statistics and certain security policy statements including sexual assault policies that assure basic victims’ rights, the law enforcement authority of campus police and where students should go to report crimes. The report is to be made available to all current students and employees. Prospective students and employees are to be notified of its existence and given an opportunity to request a copy. Perspective students and employees may request a copy at the Admissions Office, Police and Public Safety headquarters, and the Office of Human Resources. Reporting to compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics is a collective responsibility of the University. It is the responsibility of the Morgan State University Police and Public Safety Department to collect crime reports and distribution of the annual crime statistics and report by October 1 of each calendar year.

The Morgan State University Annual Safety Security and Fire Safety Report and Procedures is available to all current Morgan State University students and employees and to all prospective Morgan State University students and employees upon request. The Morgan State University Annual Safety and Security Report and Procedures includes:

- statistics on the number of on-campus murders, rapes, robberies, aggravated assaults, burglaries, motor vehicle thefts, bias-related crimes and arrests for weapons possessions and liquor and drug abuse violations;
- policies regarding security, access to University and other facilities, and University law enforcement;
- procedures for reporting crimes and other emergencies;
- information on University sexual assault and rape awareness programs, procedures to follow when a sex offense occurs, disciplinary action procedures, counseling opportunities and notification to students that Morgan State University will make reasonable changes of a victim's academic situation if the victim so chooses;
- policies on the use, possession and sale of alcoholic beverages and illegal drugs;
- a description of Morgan State University programs informing the campus community about alcohol and drug abuse education, crime prevention and campus security practices.

Each member of the University community receives an email that describes the report and provides its Web address. Prospective students, faculty and employees may obtain copies of this report by visiting the Morgan State University Police Department (MSUPD) Headquarters at the Washington Service Center room 300. Copies of this report are available at MSUPD Monday through Friday during normal business hours. For a paper copy, contact the Department of Police and Public Safety at 443-885-3100, or e-mail msupolice@morgan.edu.

The Department of Police and Public Safety: Who Are We?

The Department of Police and Public Safety is open 24 hours a day, 365 days a year. The telephone number for emergency calls is 443-885-3103. The telephone number for routine business calls is 443-885-3100. The department consists of professional Police Officers and Public Safety Aides dedicated to providing best in class service to the community. Officers patrol the campus on foot, by bicycle, and in motor vehicles. Several officers and a supervisor are on duty 24 hours a day. The Communications Center is staffed with trained and certified dispatchers who receive calls for service, dispatch officers to respond to emergency calls for assistance and qualifying incidents, and monitor intrusion detection and fire alarms. The department staff also carries out a variety of roles, including operating the campus escort program.

Working in partnership with the community, we are committed to providing the highest quality of police service to the students, faculty, staff, and visitors of Morgan State University by maintaining community peace, safety, and quality of life. As a law enforcement department, our vision is to provide safety for our community and enhance the educational environment of our students through effective community policing and superior customer service.

The Morgan State University Police and Public Safety Department is committed to providing a safe community for students, faculty, staff, and visitors. Through progressive training, proactive enforcement, and ethical conduct, our department seeks to provide and maintain the delivery of quality services. The involvement of the community is important to the success of our efforts. We value the community in which we serve and we are always available for input and information from the community.

Our Mission Values

Humanity:

We respect life and liberty and are sensitive to the needs and concerns of the community, treating everyone with respect, compassion, and dignity.

Professionalism:

We take pride in our University. We are committed to excellence in our profession, and maintain the highest standards of training, education, and discipline in our field.

Integrity:

We are guided by the principles of justice and honesty. We employ the highest ethical standards; we demand of ourselves accountability, consistency, fairness to the community, and truthfulness in the pursuit of our mission.

Campus Policing and Security Policies, University Police Officers, Law Enforcement Authority, and Interagency Cooperation:

University Police Officers derive their law enforcement authority from The Morgan State University Board of Regents as set forth by State of Maryland statutes. Annotated Code of Maryland, Education Article §14-106: Throughout the State of Maryland, University Police Officers have the same powers, privileges, immunities, and defenses as sheriffs, constables, police officers, and other peace officers including the powers of arrest. The University Police Officers have the authority to enforce the rules and regulations of the University set forth by the Board of Regents. University Police Officers also have the authority to make referrals to the Student Judicial Affairs. University Police Officers are required to complete a police-training course approved and authorized by the Maryland Police Training Commission. Officers also are required to attend mandatory in-service training throughout the year to enable them to perform more efficiently and more safely. The non-sworn public safety aides attend an in-house training that provides the aides with a basic orientation to the theories of campus security. All Police Officers participate in a minimum 200-hour Field Training and Evaluation Program to further orient them to public safety at Morgan State University.

Interagency Cooperation:

The Department of Police and Public Safety works closely with the Baltimore City Police Department and other police agencies. We rely on these relationships for support on several levels. In addition to sharing critical information, the Department of Police and Public Safety has immediate contact with the Northeast District of the Baltimore City Police Department. The Department maintains a Memorandum of Understanding with the Baltimore City Police Department for mutual aid, and assistance with the investigation and enforcement of certain crimes both on and off campus. This relationship gives us immediate access to communal aid and support from the Baltimore City Police Department and other first responder agencies. When a Morgan student is involved in an off-campus offense, police officers may assist with the investigation in cooperation with local, state, or federal law enforcement. Baltimore City police routinely work and communicate with campus police officers on any serious incidents occurring on-campus or in the immediate neighborhood and business areas surrounding campus. MSU operates off-campus housing facilities. Many students also live in the neighborhoods surrounding MSU. While Baltimore City police have primary jurisdiction in all areas off campus, MSU police officers can and do respond to student-related incidents that occur in close proximity to campus. MSU police officers monitor and communicate with Baltimore City police via a Baltimore City Police radio located at our police dispatcher station to facilitate rapid response in any emergency situation.

Reporting Criminal Incidents and Other Emergencies:

All students, employees, and guests should promptly report criminal incidents or accidents, and other emergencies to the Department of Police and Public Safety by dialing extension 3103 from a campus network phone or 443-885-3103 or 911 for local police. Individuals also may report incidents in person at the department's Communications Center at the Washington Service Center. The University has installed emergency two-way call boxes and blue light phones throughout campus for use during emergencies. By pressing the red button on the stations, users can communicate directly with our Communications Center. The location of the station is digitally displayed to the Communications Officer.

Monitoring and Recording Criminal Activity at Off-Campus Organizations:

The University relies on its close working relationships with local law enforcement agencies to receive information about incidents involving MSU students. The Department of Police and Public Safety will actively investigate any crime information it receives concerning or involving a member of the campus community. If the University is notified of a situation in which a campus community member is the victim of a crime, the department may issue a Campus Safety Alert, detailing the incident and providing tips so that other community members may avoid similar incidents. Morgan State University made inquiry to the Baltimore City Policy Department to obtain information regarding reportable Clery Act occurrences which may have taken place on public property adjacent to and accessible from campus. We have received assistance with crime statistical data from the North East District of the Baltimore City Police Department prior to compiling the crime statistics in this report.

Access to Campus and Residence Halls:

Access to campus buildings and grounds is a privilege extended to students, faculty, staff, and authorized guests. The University encourages an open environment with limited constraints to ensure the reasonable protection of all members of the community. Except for residence halls, most campus facilities are open only during regular weekday business hours. Individuals who wish to access University buildings or property during non-business hours or for special events should contact the appropriate department administrator, Event Services, and the Department of Police and Public Safety.

Special Procedures for Residence Hall Access:

All residence halls are equipped with an access control system. Unlimited access is available to resident students and authorized staff via the system. Guests and other visitors may visit residence halls as long as they have been authorized by a member of the University community. The exterior doors to student residence halls remain locked 24 hours a day. The University will change living situations if the request by the reporting party is reasonably available.

Security Considerations in the Maintenance of Campus Facilities:

Morgan State University is committed to campus safety and security. Exterior lighting and landscape control is a critical part of that commitment. Representatives from various departments continually conduct security surveys to ensure campus lighting is adequate and that the landscape is appropriately controlled. Police Department members conduct routine checks of lighting on campus during regularly assigned patrol duties. If lights are out or dim, officers will initiate an immediate work order, which is acted upon by a representative of the appropriate maintenance office, usually within 24 hours or the next business day. We encourage community members to report any deficiency in lighting to the Physical Plant at 443-885-3177. Any community member who has a concern about physical security should contact the Police and Public Safety Department at 443-885-3103. The MSU Police and Public Safety Department, and the Physical Plant Department, together, work to identify inoperative locking mechanisms. We encourage community members, to promptly report any locking mechanism deficiency to the Physical Plant at 443-885-3177, or to the Department of Police and Public Safety at 443-885-3103. Maintenance staffs are available to respond to calls for service regarding unsafe facility conditions or for personal safety and property protection. These conditions also may include unsafe steps or handrails, unsafe roadways on campus, and unsecured equipment.

Emergency Response and Evacuation Procedures:

In accordance with the Higher Education Opportunity Act of 1965 as amended (HEA) Morgan State University has implemented a comprehensive communications system to provide prompt warning notifications and alerts of emergencies or threats to the campus community using a variety of methods, including but not limited to: email notices; short message service text alerts, posters, website notices and other methods. The office of Public Relations and/or MSUPD will notify the campus community of emergencies of crimes that have occurred and necessitate caution, direct the campus community on evacuation routes and procedures, or other action on the part of students, employees, and campus visitors. The campus community will be "immediately" notified upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on campus unless the notification will compromise efforts to contain the emergency. "Timely warnings" will be provided to the community in the event that a situation arises either on campus or just off campus that in the judgment of the Chief of the MSUPD constitutes an ongoing or continuing threat to the University community. The Office of Public Relations and/or MSUPD will test this system annually and file the results of those tests. Annually, the offices of Public Relations and Human Resources provide communications to the University community regarding University procedures for authorized closings and campus closures due to inclement weather.

Timely Warning Notices/Campus Safety Alerts:

To help prevent crimes or serious incidents, the Department of Police and Public Safety, in conjunction with other departments on campus, issues Campus Safety Alerts in a timely manner to notify community members about certain crimes in and around our community. Members of the community who know of a crime or other serious incident should report that incident as soon as possible to the Department of Police and Public Safety so that a Campus Safety Alert can be issued, if warranted. If community members report crimes or serious incidents to other University administrators, those administrators will notify the Department of Police and Public Safety. Representatives of these offices will promptly notify and collaborate with the Department of Police and Public Safety to issue a Campus Safety Alert, if one is appropriate. The Police Chief or a designee will develop timely warning notices for the University community to notify members of the community about serious crimes against people that occur on campus, where it is determined that the incident may pose an ongoing threat to members of the University community. Timely Warning Notices are usually distributed for the following Uniformed Crime Reporting Program (UCR)/National Incident Based Reporting System (NIBRS) classifications: arson, criminal homicide, and robbery. Cases of aggravated assault and sex offenses are considered on a case by case basis, depending on the facts of the case and the information known by the campus police department. For example, if an assault occurs between two students who have a disagreement, there may be no ongoing threat to other University community members; therefore, a Timely Warning Notice would not be distributed. Sexual assaults are considered on a case by case basis depending on the facts of the case, when and where the incident occurred, when it was reported and the amount of information known by the campus Police Department. Timely Warning Notices may be distributed for other crimes as determined necessary by the Chief of Police or his or her designee in his or her absence.

The Police Chief or designee will develop Timely Warning Notice for the University community to notify members of the community about serious crimes against people that occur on campus where it has determined that the incident may pose an ongoing threat to members of the University community.

In an effort to provide timely notice to the University community, and in the event of a serious incident which may pose an ongoing threat to members of the University community, a blast email Timely Warning Notice is sent to all students and employees on campus. The alerts are generally written by the Chief of Police or a designee and they are approved and distributed to the community. Updates to the University community about any particular case resulting in a Timely Warning Notice may be distributed via blast email, may be posted on the campus police website or may be shared with the Student Newspaper for follow-up story. Timely Warning Notice posters may also be posted by the MSUPD in campus buildings when deemed necessary. When Timely Warning Notice are posted in campus buildings, they are printed on white paper and posted in the lobby/entrance area of the affected building (s) for seven days. In the event of an actual emergency the campus community will be notified through email, and short message service (SMS) text alert, and the MSU website. Students should take responsibility for regularly checking their email. Email accounts are automatically assigned to students upon enrollment into the University. Students who have difficulty accessing their email account should call the help desk at 443-885-4357 and request assistance.

Campus Mobile Alert System:

A SMS (Short Message Service) has been procured to send emergency alerts, notifications, and updates to subscriber's text enabled devices and/or email accounts. In the event of an emergency, the Department of Police and Public Safety will send important alerts and updates to subscriber's cell phone or mobile device.

Distribution of Campus Safety Alerts:

The department distributes Campus Safety Alerts in various ways. Once the University determines that an alert will be issued, the department e-mails the announcement and posts it on its Web site www.morgan.edu/police. The department also posts alerts on bulletin boards throughout campus.

Daily Crime Log:

The Department of Police and Public Safety maintains a Daily Crime Log that records, by the date the incident was reported, all crimes, and other serious incidents that occur on campus, in a non-campus building or property, or public property, or within the department's patrol jurisdiction. The Daily Crime Log is available for public inspection at the department's communications base station. The Daily Crime Log includes the nature, date, time, and general location of each crime reported to the department, as well as the disposition of the complaint, if this information is known at the time the log is created. The department posts specific incidents in the Daily Crime Log within two business days of receiving a report of an incident and reserves the right to exclude reports from the log in certain circumstances. Any portion of the report that is older than 60-days will be made available within two business days of a request for public inspection.

Crime Prevention Education and Awareness Community Oriented Policing (COP):

The Community Oriented Policing (COP) program assigns department members to each on college, school, and student organizations. The member serves as the primary liaison for all public safety services to the college, school, or organization. These activities include holding special topic and general crime prevention seminars, conducting building surveys, distributing literature, conducting customer satisfaction surveys, solving problems, and developing substantive relationships with members of the community.

Missing Students:

Morgan State University complies with Section 485(j) of the Higher Education Opportunity Act regarding missing student notification. If a member of the University community has reason to believe that a student who resides in on-campus or University sponsored housing is missing, he or she should immediately notify MSUPD at (443) 885-3103. MSUPD will generate a missing person report and initiate an investigation. After investigating the missing person report, should MSUPD determine that the student is missing and has been missing for more than 24 hours, MSU will notify the Baltimore City Police Department (BPD) and the student's emergency contact no later than 24 hours after the student is determined to be missing. If the missing student is under the age of 18 and is not an emancipated individual, MSU will notify the student's parent or legal guardian immediately after MSUPD has determined that the student has been missing for more than 24 hours. In addition to registering an emergency contact, students residing in on-campus housing have the option to identify confidentially an individual to be contacted by MSU in the event the student is determined to be missing for more than 24 hours. If a student has identified such an individual, MSU will notify that individual no later than 24 hours after the student is determined to be missing. Students who wish to identify a confidential contact can do so through the MSU Office of Residence Life web site. **This information will be accessible only to authorized campus officials, and may not be disclosed, except to law enforcement personnel in furtherance of a missing person's investigation. If a report of a missing student who resides off-campus is made directly to MSUPD, it will be forwarded to the proper police agency, to maintain the proper jurisdiction for follow-up investigation.**

Residence Halls Fire Safety:

All residence halls have smoke detectors, sprinkler systems, and a Fire Alarm Control Panel. There are smoke detectors in each student room as well as in common areas. These are connected to the central alarm system, which, in turn, is connected to the Department of Police and Public Safety.

Fire Drills:

The Physical Plant Department, in conjunction with Residence Life staff, conducts two fire drills (evacuations) from each residence hall during the academic year. The University requires complete evacuation of buildings during a fire alarm. Individuals who ignore fire alarms and required evacuations may face disciplinary action. Since false alarms may lower the evacuation response from students, the University will analyze the cause or causes of false alarms and work to reduce their occurrence. By reducing the number of false alarms, we hope to maintain students' diligence in responding.

Report of Fires at Residential Halls:

The Morgan State University Department of Police and Public Safety are responsible for preparing and distributing this report. We may work with many other departments and agencies, such as the Office of Student Affairs, the Office of the Dean of the Graduate School, Office of Residence Life, and the Baltimore City Police and Fire Department, to compile the information. We encourage members of the Morgan State University community to use this report as a guide for safe practices on and off campus. Each member of the University community receives an email that describes the report and provides its Web address. For a paper copy, contact the Department of Police and Public Safety at 443-885-3100, or e-mail msupolice@morgan.edu.

Physical Plant

As the largest non-academic department on Morgan State University campus, the Physical Plant is a service organization responsible for the high quality operations and maintenance of all university facilities, which include all campus structures, basic building components, utilities, energy conservation, environmental health and safety concerns, housekeeping, grounds, roads and fleet management.

The Physical Plant Department administrative office is located on the third floor of the Washington Service Center, Room 301. Physical Plant is responsible for the operation and maintenance of University buildings and grounds. The effectiveness of the Physical Plant in meeting its obligations and the service needs of the University community is largely dependent on a strong communication network between Physical Plant and user departments/programs. The reporting of problems (i.e., defective plumbing, broken doors, roof leaks, etc.) significantly assists the department in its endeavors. Additionally, the campus community's efforts in minimizing the abuse of the University facilities and emphasizing cleanliness and neatness assists the department in attaining its goals and is greatly appreciated.

Individual printed copies of the 2012 Campus Security and Fire Safety Report may be requested through the mail or in person from the Morgan State University Police Department, 1700 East Cold Spring Lane Baltimore, MD 21251 or by calling 443-885-3100.

The Fire Report will maintain a fire log that records the date the fire was reported, whether the fire occurred in an on-campus student housing facility, the nature, date, time and general location of each fire. This Fire Safety Report is available for public inspection at the above referenced website. Any portion of the report that is older than 60-days will be made available within two business days of a request for public inspection.

1. Description of On-Campus Student Housing Fire Safety Systems:

Each Residence Life Facility has the following:

- a. Complete automatic sprinkler system
- b. Fire alarm system
- c. Smoke alarms
- d. Egress corridors and stairwells are fire rated
- e. Residents with disabilities are accommodated according to their needs.

2. Number of Fire Drills:

The Office of Residence Life in conjunction with the Physical Plant Department, conduct one fire drill every year at each On-Campus Student Housing Facility.

3. Policies on portable electrical appliances, smoking and open flames:

On-Campus student housing facilities have prohibitions against the following activities:

- a. Smoking.
- b. Using lighted candles or other open flame devices.
- c. Setting fires, intentionally or recklessly misusing or damaging fire safety equipment, including, but not limited to, alarms, heat sensors, smoke detectors, hoses, fire extinguishers, and emergency telephones.
- d. Failure to exit any building when a fire alarm has sounded or a building is evacuated.
- e. Unauthorized use, possession or storage of any weapon.
- f. Unauthorized use or possession of fireworks on University premises.
- g. Cooking in unapproved areas such as bedrooms.

4. Procedures for Student Housing Evacuation:

In the event of a fire or any other emergency that would warrant the complete evacuation of the building, the departments of Police & Public Safety and the Physical Plant will work together along with the designated authorities, to evacuate the building as the prevailing conditions will allow. All building occupants must participate without exception. Before opening any door which leads to the main hallway, feel the door with the back of your hand to ascertain if it is hot.

If the door is not hot, open it slowly. Then if conditions allow, proceed to your assigned stairwell and follow the evacuation plan. If the smoke is too heavy, do not enter the hallway. Close the door, place a towel or cloth along the bottom of the door and then proceed to your balcony (if applicable). If your office or room has no balcony, open the window for fresh air. Hang a sheet out of the window to let the Fire department know you are there.

If the door is hot, do not open it. Follow the same procedure as outlined above. If for any reason you must remain in your office or room during a fire or emergency, remain calm and wait for the Fire Department to assist you.

Hats, coats or other personal property must be disregarded in the event of an actual fire. Time is of the utmost importance (seconds count) the evacuation of the building must be executed as soon as possible.

Fire Drill Procedures

Total evacuation of the building is necessary; therefore proceed to your designated means of egress. After you reach ground level, proceed to your designated meeting place. Make sure you are accounted for with your Floor Evacuation Coordinator or his/her assistant.

While evacuating, avoid carrying hot liquids, i.e. coffee, tea, hot chocolate, someone could get scalded.

During a fire drill in this building, each resident is responsible for making sure their room is locked and all valuables secured.

Turn off stoves, ovens and all appliances, if in use at the time of the drill.

5. List of the titles of each person or organization to which individuals should report that a fire has occurred:

All fires should be reported by the following methods: activating the manual pull station and then calling the Campus Police at extension 3103.

6. Plans for future improvements in fire safety:

The University and its fire alarm and sprinkler system contractors continually evaluate the fire protection systems in residential facilities. All major repairs and necessary upgrades are planned and performed through joint consultation between the University and its contractors. Through capital projects that include building upgrades, renovations and additions new state of the art fire alarm and sprinkler systems are installed.

Rape Aggression Defense (RAD):

The Department of Police and Public Safety offers the Rape Aggression Defense (RAD) systems program. This self-defense class, designed specifically for women, is a nationally recognized course that gives women the skills they need to prevent and survive a violent attack. The department usually offers a RAD Systems program each semester. Preventing crime through collaboration and cooperation is a crime prevention technique and a top priority of the department. Together with the Office of Residence Life and Housing, the department provides programs to enhance personal safety, teach proactive crime-reduction strategies, and help community members develop self-esteem, which contributes to a healthy community. The campus crime-prevention strategy rests on a multilayered foundation of a proactive area patrol of the campus, crime prevention, education and training, building and area security surveys, and property registration. This approach relies on the dual concepts of eliminating or minimizing criminal opportunities, whenever possible, and encouraging community members to take responsibility for their own and others' safety. Members of the department are available to assist any individual or group in planning, presenting, and coordinating programs of interest or concern.

Operation Identification:

This nationally organized program encourages engraving personal identification numbers on valuable property. Thieves tend to shy away from property with engraved numbers due to the difficulty of selling it on the open market. If an item is stolen and later recovered, the identification number will assist law enforcement agents in returning it to its rightful owner.

Crime Prevention Promotions, Flyers, and Other Advertisements:

The department publishes a general crime prevention brochure that outlines the many crime prevention programs and strategies available in the community. In addition, the department periodically chooses a special topic to highlight in flyers or on the department's Web site. Flyers, brochures and pamphlets are distributed to the community in departmental mailboxes, on announcement boards, and via email announcements. Crime prevention and awareness posters are posted at each residence hall and at various buildings on campus.

Emergency Blue Light Phones/ Emergency Phones:

These two-way call boxes are located strategically around campus. They allow an individual in need of assistance to speak directly with a member of the department. The communications officer will dispatch the appropriate emergency response team to the caller.

Campus Escort Program:

If you must travel alone at night, the campus escort program provides a safe, reliable way to travel throughout the campus. The program consists of an escort by a member of the Police and Public Safety Department.

Security Surveys:

These surveys are conducted on a regular basis with other members of the University community, including members of the student government. The primary goal of these surveys is to identify areas of the campus that may present vulnerabilities to one's safety. The department works with the appropriate Physical Plant office to address concerns noted in the surveys.

III. APPLICABLE LEGAL SANCTIONS UNDER FEDERAL, STATE AND LOCAL LAWS RELATING TO ALCOHOL AND DRUG USE.

Employees and students at the University are subject to federal, state, and local laws regarding the possession and distribution of illegal drugs.

Federal law states that it is unlawful to possess a controlled dangerous substance, including marijuana, cocaine, LSD, PCP, heroin, designer drugs, etc.² If the substance is cocaine, or contains a cocaine base, the penalty for simple possession is a fine and/or imprisonment from 5 to 20 years. For other illegal drugs, the penalty for simple possession is a fine of at least \$1000.00 and/or imprisonment up to 3 years. The penalties increase if the possession includes intent to manufacture, distribute, or dispense a controlled substance, especially if done near a public or private elementary, vocational, or secondary school or a public or private college or university. Additionally, any person who violates this law shall be liable for an amount up to \$10,000.00 in civil penalties.

In addition to Federal laws, the State of Maryland has its own laws dealing with distribution, manufacturing, and possession of controlled substances. For instance, any person who unlawfully manufactures or distributes any narcotic drug may be fined up to \$25,000.00 and may be imprisoned for up to 20 years for a first offense.³

Employees and students at the University are subject to state and local laws for drinking and obtaining alcohol. It is illegal in the State of Maryland for any person under 21 years of age to drink alcohol.⁴ It is also illegal for a person under 21 years of age to falsify or misrepresent his or her age to obtain alcohol, or to possess alcoholic beverages with the intent to consume them.⁵ It is also illegal in most situations to furnish alcohol to a person under 21 years of age.⁶ The penalty is a fine of up to \$500.00 for a first offense, and up to \$1000.00 for repeat offenses.

In addition, state law dictates that it is illegal to possess alcohol in an open container in any parking lot of any shopping center or retail store, unless given permission by the owner. The penalty is a fine of up to \$100.00.⁷ It is also illegal to consume alcohol on any public property or highway, unless authorized by the governmental entity which has jurisdiction over the property, with penalties including a fine of up to \$100.00.⁸

Employees and students are also subject to state and local laws governing drinking and driving. A person may not drive or attempt to drive while intoxicated or under the influence of alcohol.⁹ Individuals under 21 years of age with a blood alcohol level ("B.A.L.") of only .02 (approximately 1 drink) will be charged with a violation of restricted license and result in suspended license until the age of 21 years.¹⁰ Any individual with a B.A.L. of .07 or more will result in a violation of Driving While Under the Influence.¹¹ A B.A.L. of .10 or more will result in a violation of Driving While Intoxicated.¹² Any of these violations will result in fines, imprisonment, or both.

It is also unlawful to drive while under the influence of any Controlled Dangerous Substances whether or not they are illicit (prescribed or unlawfully obtained).¹³ A person can still be charged with these violations even though they possess a driver's license from another state.

IV. HEALTH RISKS ASSOCIATED WITH THE USE AND ABUSE OF ALCOHOL AND ILLICIT DRUGS

Substance abuse, the abuse of alcohol and drugs, is now recognized as the number one public health problem in the United States. Approximately 30% of all admissions to general hospitals and 50% of admissions to psychiatric hospital have detectable substance abuse. Substance abuse accounts for approximately 150,000 deaths annually. This includes deaths from stroke, disease of the heart and liver, and all alcohol and drug related suicides, homicides, and accidents. Early detection can minimize or prevent the devastating consequences of substance abuse.

Substance abuse and substance dependence are two different phenomena, as delineated below. Taken together, however, they are the leading cause of death,

dysfunction and disability for much of the working-age population individuals between the age of 18 and 50.

Substance abuse is a practiced behavior involving intoxication and high risk actions. Substance abuse is a pattern of behavior (not a disease) which involves use of alcohol or drugs to levels of disinhibition and associated high risk actions. Substance abuse is periodically practiced by twenty to eighty percent of the people who are between 20 and 40 years old.

Substance dependence is a disease that responds to treatment and relapses when treatment is stopped. Substance dependence is a disease affecting ten to twelve percent of the population, resulting in an intermittent inability to control the use of alcohol or drugs, with repetitive adverse consequences. As a disease, it has defined risk factors, signs and symptoms, a predictable natural history, a good response to treatment if treatment is effectively embraced, and a risk of relapse if the treatment regimen is not followed. More detailed information may be obtained by calling the: Campus Counseling Center.

VII. EFFECTIVE DATE

The effective date of this policy shall be May 4, 2010. All preceding Morgan State University Drug and Alcohol Policies are hereby repealed.

Campus Drug Policy:

Morgan State University does not condone the possession, use, manufacture, or distribution of illegal substances or drug paraphernalia of any kind in any amount. Students in violation of this policy may be jeopardizing their own wellbeing as well as the wellbeing of the University community. Among those violations considered to be most serious are the manufacture, sale, or distribution of illegal drugs; any involvement in illegal drug use or traffic with minors, particularly from the local area; and possession or use of the more dangerous or highly addictive drugs. Morgan State University's policy prohibits the unlawful possession, use, or distribution of alcohol and controlled/illegal drugs by any member of the University community. All community members are expected to fulfill their obligations and responsibilities pursuant to Morgan State University policy as well as federal, state, and local laws. Disciplinary action imposed by the University may be in addition to criminal penalties. Both students and employees are subject to the applicable state and federal laws.

Preventing and Responding to Sexual Assault:

Morgan State University is committed to creating and maintaining a community in which students, faculty, and staff can work and study in an atmosphere free from all forms of harassment, exploitation, or intimidation. Every member of the University community should be aware that the University does not tolerate sexual assault and harassment and that such behavior is prohibited both by federal and state law and by University policy.

Morgan State University will take whatever action may be needed to prevent, correct, and, if necessary, discipline and/or prosecute behavior that violates this policy and the law. All forms of sexual assault and all attempts to commit such acts are regarded as serious University offenses that are likely to result in suspension, required withdrawal, expulsion, or termination. Prosecution may take place, in accordance with State of Maryland criminal law, independent of University actions.

For further information about the University's stance on sexual assault or sexual harassment, contact the Counseling Office at 443-885-3130.

Reporting a Sexual Assault:

The safety and well-being of the survivor is the primary concern. Immediately following an attack, the survivor should try to write down everything she or he remembers about the incident, including the physical description of the suspect(s) and any further information about the identity or location of the suspect(s). Additionally, preserving evidence is important in later pursuing a criminal or other judicial case. It is recommended that you do not douche, bathe, shower or changes clothes before seeking medical treatment. It is also important not to wash sheets or other items where critical DNA evidence may be found. Whether or not you decide to report the incident, you are encouraged to seek medical treatment immediately and get counseling as soon as possible.

The University has confidential and non-confidential options for reporting a sexual assault.

Confidential Reporting Options

Certain individuals within the University community maintain a professional status (e.g. health care providers and professional and pastoral counselors) which require them to keep information shared with them confidential. As such, any information reported to these individuals relative to incidents of sexual assault will not be shared with anyone else and will remain confidential unless there is an imminent threat to health or safety, you provide permission for the information to be shared, or there is another legal basis for disclosure (e.g. suspected child abuse). When you talk to a confidential source, you are not making a formal report or complaint.

Incidents may be reported confidentially to the following offices:

- University Counseling Center located in Carter-Grant-Wilson, Room 202.
- University Chapel; and
- University Health Center

A civilian counselor or health care provider trained to deal with sexual assault issues in a confidential way will be available to talk to you. These offices are generally open Monday through Friday from 8:00 a.m. until 5:00 p.m. After hours and weekends, a survivor or witness may contact the Department of Police and Public Safety at ext. 3103 to arrange to meet with a counselor or health care provider. No matter when the assault occurred or what you decide to do, consider counseling. Sometimes talking can be the most important step to healing. Friends of survivors may seek counseling and support as well.

Non Confidential Reporting Options

Responsible Employees at the University have a duty to promptly notify the University's Title IX Coordinator of any report of sexual misconduct that is brought to their attention. As such, any report of sexual misconduct that is reported to a Responsible Employee will be shared with the University's Title IX Coordinator. The following individuals have been identified as Responsible Employees at the University:

- a. Title IX Coordinator
- b. Deputy Title IX Coordinator
- c. University Administrators (e.g. President, Provosts, Vice Presidents)
- d. Deans
- e. Department Chairs
- f. Campus Security Authorities

- g. Athletic Coaches
- h. Student Affairs Personnel
- i. Residence Life Personnel
- j. Campus Police
- k. Faculty Members
- l. All employees serving in a supervisory capacity

It should be noted that reporting a sexual assault may help to prevent another assault. Also, reporting the incident to the Department of Police and Public Safety does not mean that the survivor must file criminal charges. The survivor maintains the ultimate decision of whether to move forward with an investigation.

Rights and Resources for Sexual Assault Victims:

Morgan State University is committed to maintaining an academic and work environment where all individuals feel safe and are free to develop professionally, and socially. In accordance with federal and state law, including Title IX, Morgan State University strictly prohibits any acts of sexual misconduct by students, faculty and staff. Sexual misconduct includes, but is not limited to, acts of sexual assault, sexual harassment, domestic violence, dating violence, and stalking.

The University policies on sexual assault, sexual harassment and the Student Code of Conduct are available online at www.morgan.edu. All reports of sexual misconduct are taken seriously. Anyone who has been a victim of sexual misconduct has certain rights under federal and state law, and in accordance with University policy. These rights are outlined below.

1. **You have the right to choose what course of action you want to take.** There are several options that are available to individuals who have experienced sexual misconduct. These options are outlined for you in greater detail in this document. What you decide to do is up to you. You should not feel pressured to choose to do something you do not want to do. Also, you should not feel pressured to make a decision about everything right away. However, you should note that in certain circumstances, delaying a decision may impact other areas (e.g. the ability to gather evidence during a medical examination or an investigation). The University is here to support you with whatever decision you decide to make.
2. **You have the right to talk to a confidential resource/counselor who will not disclose any information you share with them unless there is a direct threat to the health or safety of yourself or others.** Several confidential resources are available to you on campus who can provide support and counseling to you. You may contact any one of the following resources:
 - a. University Counseling Center: 443-885-3130
 - b. University Chapel: 443-885-5105
 - c. University Health Center: 443-885-3236

Additional resources for off campus counseling and assistance are also available and are listed in the University's Sexual Misconduct and Title IX: Campus Resource Guide for Students, Faculty, and Staff.

3. **You have the right to seek a medical examination and treatment. Individuals are encouraged to seek medical treatment as soon as possible even if you do not believe you have any injuries.** Seeking medical treatment will also provide an opportunity to discuss any risks of exposure to sexually transmitted diseases and pregnancy with a health care provider. Confidential medical treatment is available through the University Health Center (443-885-3236) or a local medical facility. The University Police (443-885-3103) is available to provide transportation to a local medical facility during hours when the University Health Center is closed. If you believe you may want to pursue criminal charges at some point, you are encouraged to go to a local medical facility that provides a free Sexual Assault Forensic Examination (SAFE). Mercy Medical Center (345 St. Paul Place, Baltimore, MD 21202; 410-332-9477) is the closest hospital to the University that is designated to perform the SAFE exam.
4. **You have the right to report the incident to law enforcement to pursue criminal charges.** You may report the incident to the University Police or to the Baltimore City Police Department. The University Police may be contacted at 443-885-3103. You may contact the Baltimore City Police Department by calling 911. If you are considering pursuing criminal charges, it is important to preserve any evidence of the incident, particularly for incidents of sexual assault. The Baltimore City Police Department handles all criminal investigations related to sexual assault cases. Criminal investigations related to all other incidents of sexual misconduct (e.g. dating violence, domestic violence, stalking) will be investigated by the University Police Department.
5. **You have the right to a prompt, fair, and thorough University investigation of your complaint.** You may report your incident to the University so that the University can conduct an internal investigation into the matter. Complaints involving students can be investigated and adjudicated by the Office of Student Rights and Responsibilities or investigated by the Office of Diversity and EEO. All complaints involving faculty and staff will be investigated by the Office of Diversity and EEO. As part of the investigation process, you will have the right to present evidence, documents, names of witnesses and any other information to the investigator.
6. **You have the right to request that your name not be disclosed to the Respondent or that the University refrain from investigating or taking any action.** Your request will be evaluated by the Title IX Coordinator. The University will make every effort to honor your request. However, honoring such a request may limit the University's ability to fully respond to the incident or to pursue any disciplinary action against the Respondent. Even when the University is able to honor your request, the University will still take reasonable steps to limit the effects of any sexual misconduct and prevent its recurrence without revealing your identity. This includes actions such as increasing security monitoring on campus, providing training and education materials, disseminating University policies, and conducting climate surveys. There are instances in which the University may not be able to honor your request. The University will determine whether it can honor your request while still providing a safe and nondiscriminatory environment for you and all other students, faculty and staff. If the University is not able to honor your request, you will be notified prior to any information being disclosed to the Respondent.

7. **You have the right to have an advisor of your choice provide support and assistance to you throughout the University's investigation process.** You may choose someone to serve as your advisor to assist you as you go through the internal University investigation process. The University is able to limit the role that your advisor is able to play during the investigation process. However, your advisor can provide assistance such as: providing emotional support; helping you understand the investigation process; helping you prepare for meetings/interviews/hearings; and attending meetings/interviews/hearings with you. Your advisor is not able to speak for you during meetings/interviews/hearings. You and/or your advisor should speak with the Title IX Coordinator to discuss any concerns regarding the role of the advisor during the process.

8. **You have the right to request that interim measures be put in place. Interim measures are reasonably available steps the University may take to ensure your well-being and safety.** Interim measures will be implemented on a case-by-case basis. Examples of interim measures include, but are not limited to, the following: changes in class/work/housing/parking assignments; temporary removal from classes/housing/campus; restrictions on contact between the parties; and academic accommodations (e.g. requests for a grade of "incomplete" in a course or taking a course as an independent study). In cases involving students, the Office of Student Rights and Responsibilities, in consultation with other appropriate University personnel as needed, shall determine what interim measures will be implemented. In cases involving faculty and staff, the Title IX Coordinator, in consultation with other appropriate University personnel as needed, shall determine what interim measures will be implemented.

9. **You have the right to amnesty for alcohol or drug use related to the complaint.** Students will not be subject to a campus conduct action under the University's Code of Student Conduct, except for a mandatory intervention for substance abuse, for a violation of the University's alcohol and drug use policies provided that the alcohol or drug use occurred during or near the time of the alleged sexual misconduct, the complaint was made in good faith, and the alcohol or drug use was not reasonably likely to place the health or safety of another individual at risk.

10. **You have the right to receive information about the status of your internal University complaint.** The office conducting the investigation of the complaint (Office of Student Rights and Responsibilities or the Office of Diversity and EEO) will provide you with updates regarding the status of the investigation/adjudication process. You will also receive written notification regarding the outcome of the investigation/adjudication and any appeal rights that may be available to you.

11. **You have the right to be informed of the potential sanctions/disciplinary action that may be imposed against the Respondent if they are found responsible for sexual misconduct.** Sanctions for students who are found to have engaged in sexual misconduct are contained in the Code of Student Conduct. Faculty and staff who are found to have engaged in sexual misconduct may receive disciplinary action up to and including termination. The procedure employed to proceed with disciplinary action against faculty and staff shall depend upon the employment category of the individual and the policies and procedures governing an employee within that employment category. How to Report a Crime:

Any member of the University community who is the victim of a crime on campus, or who witnesses a crime on campus, should call the Morgan State University Police Department **immediately at x3103** (443-885-3103) or by pushing the red emergency button on any blue light emergency phone. Crimes may be reported to persons in the positions below; however, the University prefers that complainants report crimes directly to the Morgan State University Police Department.

Community members, students, faculty, staff, and guests are encouraged to report all crimes and public safety related incidents to the Department of Police and Public Safety (MSUPD) in a timely manner. This publication focuses on MSUPD because it patrols the majority of the Morgan State University campus and the adjacent areas.

To report a crime or an emergency on the Morgan State University campus, call MSUPD at extension 3103 or, from outside the University phone system, (443) 885-3103. To report a non-emergency security or public safety related matter during business hours, call MSUPD at extension 3100 or, from outside the University phone system, (443) 885-3100. After business hours, call 443-885-3103 for assistance.

To report a crime or emergency on the Estuarine Center, call local police by dialing 911 to report a non-emergency security or public safety related matter call MSUPD at 443-885-3100.

Dispatchers are available at these respective telephone numbers 24 hours a day to answer your call. In response to a call, MSUPD will take the required action, dispatching an officer or asking the victim to report to MSUPD to file an incident report.

All MSUPD incident reports regarding crimes and/or the Code of Student Conduct are forwarded to the Chief Judicial Affairs Office. MSUPD Investigators will investigate a report when it is deemed appropriate. Additional information obtained via the investigation will also be forwarded to the Office of Student Judicial Affairs

If assistance is required from the Baltimore City Police Department or Baltimore City Fire Department, MSUPD will contact the appropriate unit. If a sexual assault or rape should occur, staff on the scene, including MSUPD, will offer the victim a wide variety of services.

This publication contains information about on-campus and off campus resources. That information is made available to provide Morgan State University community members with specific information about the resources that are available in the event that they become the victim of a crime. The information about "resources" is not provided to infer that those resources are "reporting entities" for MSU.

Crimes should be reported to the MSUPD to ensure inclusion in the annual crime statistics and to aid in providing timely warning notices to the community, when appropriate. For example, a crime that was reported only to the local law enforcement may not be included in the MSU crime statistics.

Limited Voluntary Confidential Reporting:

The MSUPD Police Department encourages anyone who is the victim or witness to any crime to promptly report the incident to the police. Because police reports are public records under state law, the MSUPD Police Department cannot hold reports of crime in confidence. Confidential reports for purposes of inclusion in the annual disclosure of crime statistics can generally be made to other Morgan state University campus security authorities. Campus security authorities are provided training about the universities crime reporting areas, types of Clery reportable crimes and how to convey such reports to the police for computation into our crime report.

Hate Crime Reporting:

Hate crimes, also called bias crimes or bias-related crimes, are criminal activity motivated by the perpetrator’s bias or attitude against an individual victim or group based on perceived or actual personal characteristics, such as their race, religion, ethnicity, gender, sexual orientation, or disability. If you are a victim of, or witness to, a hate/bias-related crime on campus, report it to University Police by calling the University Police immediately at x3103 (443-885-3103) or by pushing the red emergency button on any blue light emergency phone. Hate Crime statistical data may be found in the Crime Statistics Section of this document.

Contacting Other Law Enforcement Agencies:

Students may also contact local law enforcement agencies. Members of the Department of Police and Public Safety and other University officials will assist the student in notifying the appropriate agency in the applicable jurisdiction.

Filing an Internal Complaint within the University:

If you have been sexually harassed or assaulted, you have options for addressing such conduct. You may wish first to discuss the problem privately with a counselor in the Counseling Center. The University's response system is designed to afford a complainant (the person who is bringing a charge) and a respondent (the person who is answering a charge) a fair, prompt, and appropriate resolution process. The process is designed to help persons who need support as they address these incidents, and incorporates both informal resolutions and formal disciplinary procedures. To resolve a complaint informally, University designated individuals are available to answer questions, provide guidance, discuss options, and refer persons to other appropriate resources. The primary role of the designated individuals is to see that the University responds promptly and fairly to complaints of sexual assault or harassment. The resolution of a formal sexual assault complaint is handled by the appropriate University officer. The full text of the protocol for handling informal and formal complaints involving faculty and staff is available in the Office of Diversity and Equal Employment. The full text of the protocol for handling informal and formal complaints involving students is in the Office of Student Judiciary Affairs. In determining whether the alleged conduct constitutes sexual harassment or assault, the full context in which the alleged incident occurred must be considered.

Procedures for resolving complaints regarding sexual harassment are detailed in the Student Code of Conduct and the Office of Diversity and Equal Employment Opportunity. **In any case, both the accuser and the accused are entitled to the same opportunities to have others present during any disciplinary proceeding.** Both the accuser and the accused will be informed of the outcome of any proceeding. During any sexual assault complaint proceeding, the University has a wide range of latitude when determining sanctions. Those sanctions may range from probation to expulsion from the University.

The federal Campus Sex Crimes Prevention Act requires institutions of higher education to issue a statement advising the campus community where information concerning registered sex offenders may be obtained. In the State of Maryland, this information is accessible at <http://www.socem.info/>. On this site you will be able to find sex offenders living near you, track sex offenders' movements. The website will allow you to provide law enforcement with tips to help find offenders, get assistance if your child is the victim of sexual abuse and help find abducted children through the use of an enhanced cell phone AMBER Alert system.

By calling Maryland's toll-free Sex Offender Alert Line at 1-866-559-8017, you can sign up for telephone notification any time a registered sex offender moves in your area. The Alert Line is designed to contact individual homes, schools, daycare centers, recreational centers and churches registered by zip code when a sex offender moves into the neighborhood or if there is a change in the offender's compliance status.

Crime Statistics:

The MSUPD reports crime statistics to State and Federal authorities. Clery Act statistics are submitted to the US Department of Education. Uniform Crime Report (UCR) crime statistics are reported through the Maryland State Police, Criminal Justice Information System (CJIS) to the Federal Bureau of Investigation (FBI). There are significant similarities and differences in the two crime reporting systems. Crime definitions are the same between the UCR and Clery Act systems. However, the Clery Act requires that certain student disciplinary referrals and incident data from Campus Security Authorities is reported. This report contains Clery Act crime statistics. These statistics have been compiled from data collected by the Morgan State

University Police Department, the Baltimore City Police Department and Morgan State University Campus Security Authorities The Department of Police and Public Safety maintains a close relationship with the Baltimore City Police Department to ensure that it is notified of any crime report that is made directly to them. The Department of Police and Public Safety will disclose any crime report made directly to any local law enforcement agency by a member of the campus community. Criminal events where there is evidence that the victim was intentionally selected because of the victim's actual or perceived race, religion, sexual orientation, gender, ethnicity, or disability shall be documented within the Hate Crime Statistics.

Where do we get our crime statistics?

Our crime statistical data is gathered from areas on campus, public property immediately adjacent to campus and from non-campus property.

Campus: Any building or property owned or controlled by an institution within the same reasonably contiguous geographic area and used by the institution in direct support of, or in a manner related to, the institution's educational purposes, including residence halls; and

- a. building or property that is within or reasonably contiguous to campus, that is owned by the institution but controlled by another person, is frequently used by students, and supports institutional purposes (such as a food or other retail vendor
- b. Residential Buildings on campus. Our Crime statistics reflect crimes that have occurred on campus at residential buildings. The crime statistics section called residential halls is a subset of campus crimes.

Non Campus Property: Non campus building or property:

(1) Any building or property owned or controlled by a student organization that is officially recognized by the institution; or

(2) Any building or property owned or controlled by an institution that is used in direct support of, or in relation to, the institution's educational purposes, is frequently used by students, and is not within the same reasonably contiguous geographic area of the institution

Public Property: All public property, including thoroughfares, streets, sidewalks, and parking facilities, that is within the campus, or immediately adjacent to and accessible from the campus. Morgan State University discloses all public property crimes on Baltimore City

property and streets that are immediately adjacent to campus. The North Eastern Police District of the Baltimore City Police Department provides us with these statistics. Only those crimes reported in these areas that meet the Clery Act definition of public property are included in the annual campus security and fire safety report. Public Property roadways are as follow:

- East Cold Spring Lane from Hillen Road to Prospect Avenue/College Avenue.
- Intersection of Hillen Road & Argonne Drive to intersection of Perring Parkway & Hillenwood Road
- Argonne Drive from Hillen Road to the end of campus past McCallum Drive

Arrests: The statistical data for arrests reflect persons who were arrested for violations of the law in the areas of use or possession of alcohol, weapons, and or drugs.

Disciplinary Referrals: The statistical data for referrals reflect persons who were referred to Morgan State University for illegal use or possession of alcohol, weapons or drugs. Disciplinary referrals of such incidents are lawful as prescribed by the Jeanne Clery Campus Security and Fire Safety Act.

The Department of Police and Public Safety collects the crime statistics disclosed in the charts through a number of methods. Public Safety staff enters all reports of crime incidents made directly to the department. The department periodically examines the data to ensure that all reported crimes are recorded in accordance with the crime definitions outlined in the FBI Uniform Crime Reporting Handbook and the FBI National Incident-Based Reporting System Handbook (sex offenses only).
