

SCIE 200: NEW COURSE

INNOVATIVE APPROACHES TO HEALTH SCIENCE RESEARCH

Course Description:

This course introduces students to research studies in health-related fields. Approaches employed in STEM and social behavioral science disciplines will be explored through the research literature and hands-on experiential learning.

Credit Hours: [CRN#: 75298]

3 hours lecture, 3 hours laboratory, 4 credits

Prerequisites:

Completion of the following courses with a grade of C or better:

BIOL 105/106 or BIOL 109/110 or BIOL 101/102 and PSYC 101/111.

Who should take this Course?

STEM and Social/Behavioral Sciences sophomores and first semester juniors with an interest in attending graduate school or professional school and aspiring to health-related careers.

Students who have a commitment to excellence and to becoming fully engaged in a cooperative effort to explore health science research across different academic disciplines.

SCIE 200 is a prerequisite for SRC members and students who want to become ASCEND Scholars

SCIE 200 can be used as a Complementary Studies credit or as one of your free electives.
