

Be OPEN to Opportunities

BASIC TIPS:

- Be open when pursuing internship/co-op opportunities. If you go in with a narrow approach, you might box yourself out of opportunities that the company may offer you.
- The year after college can be a huge learning experience for figuring out who you are “post school” and “post internship/co-op.” Be open to various opportunities along the way, and you will be amazed at how much you might learn!
- You never know what opportunities are going to come from an internship/co-op. Even if the experience is not directly relatable to what you want to do long term, you never know what doors the internship/co-op opportunity may open.
- Don’t constrict yourself to a preconceived notion of what you want to do if it doesn’t seem to happen right away. Be open to opportunities for growth along the way!
